

Figure 1 is a schematic diagram of a radio communication system 200. The system includes multiple Link Head Stations (represented by rectangles) and Repeaters (represented by rectangles with 'R'). The stations are interconnected via communication links (solid lines) and are also connected to a central network (dashed lines). The diagram shows a hierarchical structure with a central hub and multiple branches. A legend at the bottom identifies the symbols: a rectangle for 'LINK HEAD STATION' and a rectangle with 'R' for 'REPEATER'.
